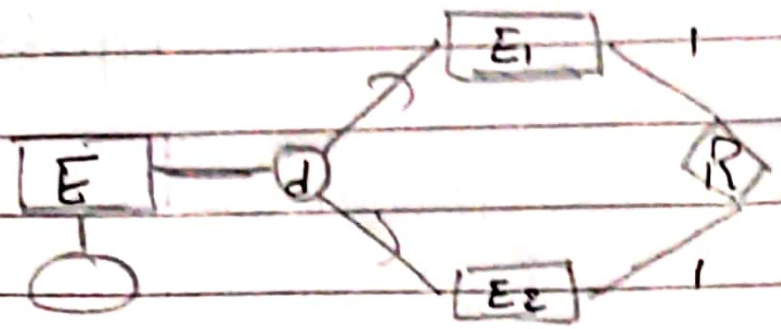
b.



Correct

E -> Person

E1 -> Student

E2 -> Private tutor

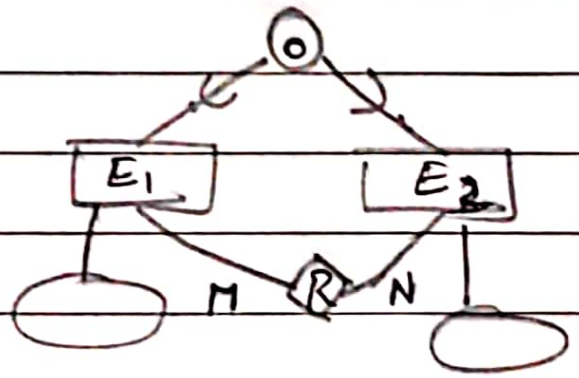
R -> teaches.

E -> Person

or

Here Private tutor teaches only one student for life.

c.



Correct

To use the overlapping constraint you don't need to have a Superclass.

overlapping tells us that an record in E1 can be present in E2 then it is possible.

If E1 = Student

E2 = Teacher

R = Teaches
